AU #1: Modern AU

Basically, cats get modern. I don't know about the twolegs yet. There could probably be sub AUs.

Sub AU #1:

Humans never existed at all.

Sub AU #2:

Humans and cats live in a co-inhabited world.

Sub AU #3:

Humans lost power. Almost Extinct, but a few roam here and there.

Sub AU #4:

Humans ave completely gone extinct.

Sub AU #5:

StarClan turns all the humans into cats. This is how the clans started to modernize in the first place. A personal favorite.
